Virtual courses save you time, money and the inconvenience of travel, but these benefits come with a price. In order for HR Academy to develop virtual courses, we invest time and resources for curriculum design, development, testing and instructors, in addition to fees associated with using the interactive learning platform.

If attendance is poor or there are last minute cancellations, we waste VA resources making it difficult for HR Academy to continue offering learning opportunities beneficial to your career. Help HR Academy and VA meet our financial stewardship goals. Select and participate in virtual courses today.
